
Procedure Section:	Transportation
Procedure Title:	Duration of Route
Procedure Number:	AP.01.31
Date Published:	December 20, 2013
Date Reviewed:	
Year of Next Review:	

The staff of RCJTC shall consider the duration of the individual route when planning transportation routes. The amount of time spent aboard the vehicle by students shall not normally exceed:

60 minutes – Junior Kindergarten to Grade 6
75 minutes – Grade 7 to 12

The length of the ride will be calculated based on the transportation software and will only consider “normal” traffic conditions. Construction, accidents, and inclement weather may cause the trip to exceed the above noted times. If any construction is expected to be long term and affect the route on a continuous basis the routing will be reviewed to determine if the time can be reduced.
